Phillippa

Excellent customer service

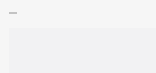

I have been a customer of RS hosting for a few years and have always found them really helpful. I recently had a more complicated problem with some over billing that had happened by mistake. Rs hosting went out of their way to sort out the problem speedily and efficiently. They made sure that the problem could not be repeated in the future and went to great lengths to sort it out. They made sure we were not out of pocket and even gave us a one off deal that really helped out with our set up going forward. This made up for any confusion and inconvenience so I ended up a very happy customer. Thank you RS hosting and Sam for being amazing!

Duncan Price

Recommended Hosting

We have been with RS Hosting now for over 13 years and get on great with the guys, I believe as we have so many sites hosted that together we have been able to make both of our services stronger as we are quite demanding as a web organisation and have to really put RS through their paces. They now know what we require and how to make everything as smooth as possible. We have dealt with other hosting companies and the support time can run into days, I have to say with RS that their support is normally within the hour and they will stay on the issue till complete.

Chris

Fast and Efficient

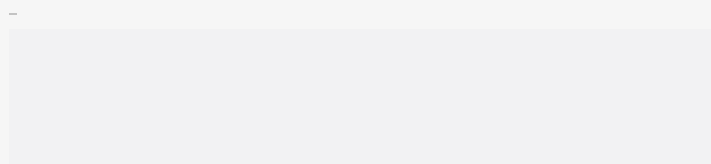

I ask for a particular item to be installed in my CPanel and it was done in a flash by Ravi. thank you Ravi. Great people there who do a wonderful job of keeping us all going. Excellent Service.

Anshita Shrivastava

Excellent Service and price

We have been using RsHosting for more than a year now, and they have never let us down. Very good technical support & fits in the budget & hosting requirement. Highly recommend.

Shailesh Kumar

Extremely satisfied

I am a software engineer and have experience around 15 Years, I have never come across a support team like RsHosting, they are JUST AMAZING in respect of: Knowledge Speed Problem Solving Helping and what so not. They are just ready to help 24X7 with the same zeal. I will recommend even when I take next birth on the earth. Any support team should be like RsHosting

Fast hosting

I've been with RS Hosting for a few years now, and although I've not had cause to raise more than two or three tickets, they've always been very fast and effective at dealing with my problems. I had thought that as they charge so little for web hosting that support might be the weak point, but not so, I thoroughly recommend them.

Jason Weir

Fast servers and fast support

I have been with Rshosting for quite some time now and they have the best hosting as I know. Super fast servers and incredible uptime for my website. What else can I ask for! And not to forget, their excellent support just adds cherry to the icecream!

Ansh

Excellent Service!

Excellent Service!! Never seen such a prompt response from any company. We get lot of help on any technical issues too. So they are not just the hosting provider but comes with a full package of all the technical support. We have already got few domains & different hosting plans with them, We are going to transfer more domains to RSHosting from other providers. I did a lot of google search before I could find the best hosting packages in my budget. I would highly recommend them.

Mostafa Beig

Decent uptime hosting

I got a UK managed cpanel vps with Rshosting in Nov 2012 and since then have been extremely happy with them. They have an amazing support... with my tickets replied quickly and with detailed explanation as what did they do to fix the problem. I have not experienced any such downtime for my vps with them, except any for scheduled server maintenance which is notified in advance. I would highly recommend these guys for their excellent hosting and support.

-

Kyriakos

Great hosting and support!

Stephen is awesome at his job, he solved all my issues and took care of my concerns in a timely and professional manner! Highly recommended hosting; their support is awesome as well!

-

Tony

Incredibly fast and super hosting company

I have been with RShosting since almost 6 years now and have only good things to say about their fast servers and super fast support. Happy to be with them and will keep recommending them.

-

Alan Cole

Customer of RSHosting for more than 18+ years

I've been hosting with RSH for at least 18 years now. When I first went with them they had by far the best support I'd ever witnessed. Things did change for a while once they were taken over by a bigger company but once again the support is top notch and they are always trying to help.
